# Demo for Using API's using Postman

➕ Open Postman , click on Import button (on the top left) and select the chequeAPI json file.

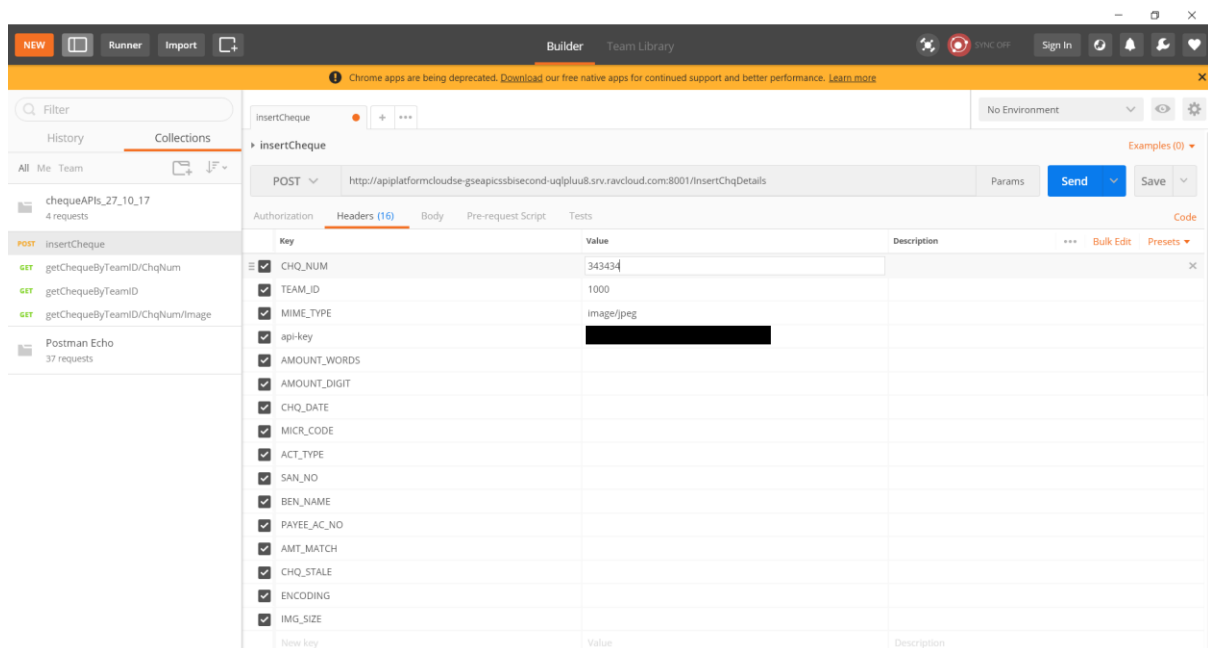

➕ ChequeAPI has been imported and can be seen in the Collection tab.
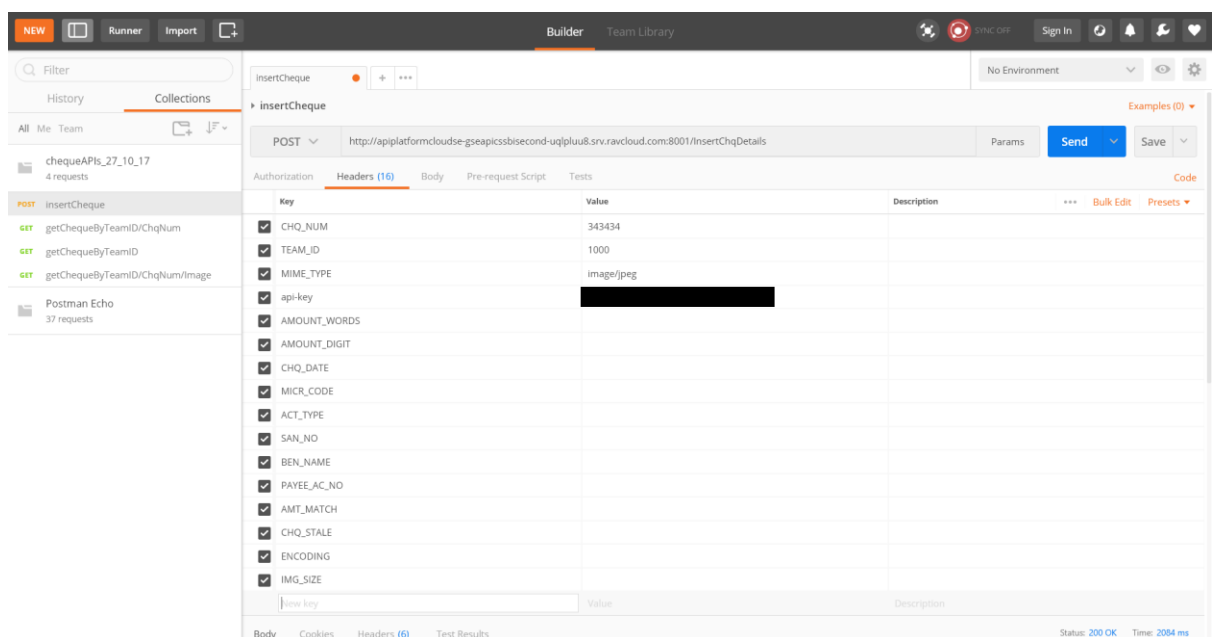

Inserting the Cheque Details:

➕ Click on the "insertCheque" POST method and give your cheque details

➕ Insert Cheque Image under the Body tab – binary option.
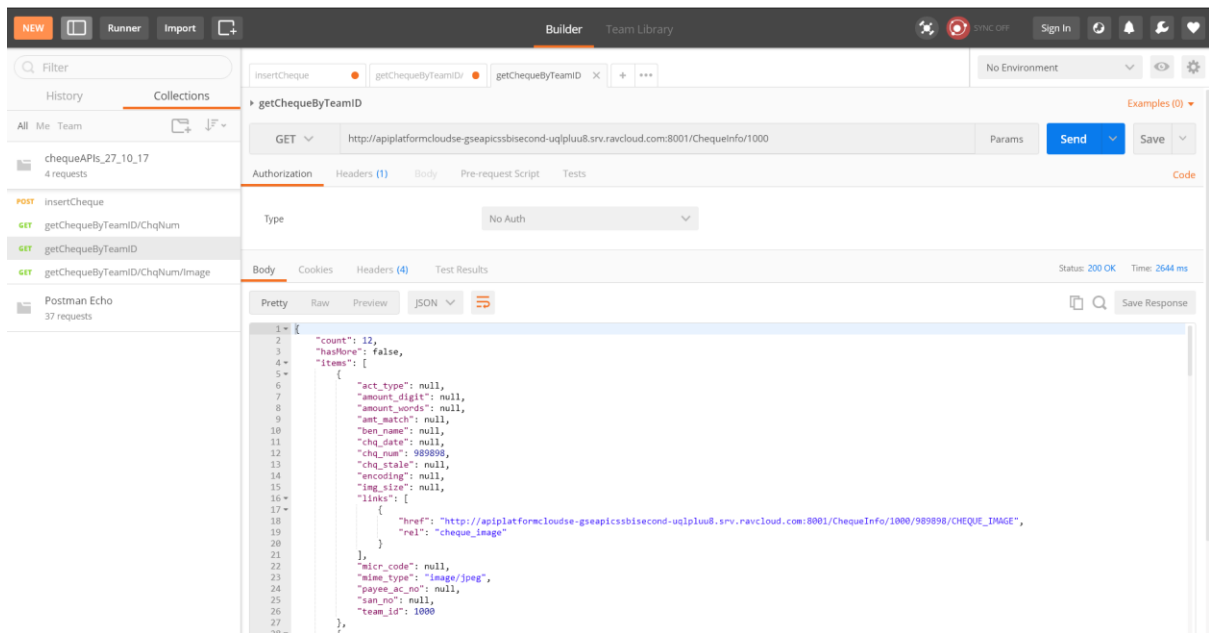

- Click on Send – you will get the Status: 200 OK

- Goto the API "getChequeByTeamID/ChqNum" and get the inserted cheque details by correct TEAM_ID, CHQ_NUM and api-key.

➕ Click on Send .

➕ Get your Cheque details by TEAM_ID by giving the url and correct team_id in "getChequeByTeamID" API.

Get your cheque image by entering the Team id , cheque number and api-key
In "getChequeByTeamID/ChqNum/Image" API.
